Dear Mr. Savige:

Under the provisions of Section 3-503, Executive Order 12065, the Gerald R. Ford Library requests mandatory declassification review of the enclosed documents from our holdings, classified by the President or his White House Staff. Identification of the documents and their file location are given on the enclosed list.

We are seeking declassification of these documents for possible display in the opening exhibits of the Gerald R. Ford Library and Museum. Mr. Ford, with whom I am working on this, has personally approved the concepts and subjects of the exhibits. Because of the long lead time in designing the displays, we will appreciate anything you can do to expedite action on these items. If an entire document cannot be declassified, we would like to emphasize our interest in a partial declassification of the item.

Please review the documents and advise us if, in your opinion, the documents may be declassified. If a document or any portion thereof should remain classified in the interest of national security, please provide us with the applicable exemption category from Section 1-301 of the Executive Order and with a date or event when automatic declassification may be accomplished. We would appreciate return of the document copies with your response, with any segments exempted from declassification clearly marked on the copies.

If there is any question concerning this request, do not hesitate to contact us. Thank you for your cooperation.

Sincerely,

William J. Stewart

Director
